ABOUT ME

Results-driven Software Engineer with 5+ years of experience in full-cycle mobile app development, including 3+ years specializing in Flutter. Expert in building high-performance, scalable, and intuitive mobile applications using Clean Architecture and Bloc Pattern. Proven track record in delivering enterprise-grade digital transformation projects and workflow automation across finance, insurance, manufacturing, and distribution sectors. Google Certified Professional Cloud Architect with expertise in GCP, low-code platforms, and enterprise integration solutions that streamline operations and enhance business efficiency.

TECH STACK & TOOLS

Languages: Dart, SQL, JavaScript, Java, TypeScript

Mobile: Flutter (Android & iOS), Cross-platform Development

Architecture: Clean Architecture, Bloc Pattern, MVVM

Cloud & Backend: Google Cloud Platform (GCP), Firebase, Node.js, Express.js

Automation: AppSheet, Google Apps Script, Workflow Automation

Enterprise: SAP HANA, SAP B1, Cloud SQL, Redis, Docker

Dev Tools: Git, Bitbucket, Figma, VS Code, Android Studio

PROFESSIONAL EXPERIENCE

2019 – Present

SOFTWARE ENGINEER | FINETECH CONSULTANCY PVT LTD – SRI LANKA

Flutter App Development

- Architected & launched the Timespot Attendance App with end-to-end features (attendance, task management, leave & WFH workflows).
- Created DocIt, an OCR-powered document management system with dynamic indexing and search.

Cloud Workflow Automation

- Digitized workflows for top clients (Dilmah, DFCC, SANASA, SDF Bank), achieving up to 80% paper reduction.
- Automated business processes using AppSheet & Apps Script integrated with SAP B1 (HANA/SQL).

Tech Leadership & Collaboration

- Led technical design and cross-team integrations for enterprise-grade systems.
- Mentored developers in architecture best practices and cloud workflows.
