ABOUT ME

Results-driven Software Engineer with over 5 years of experience in full-cycle mobile app development, including 3+ years in Flutter. Expert in building high-performance, scalable, and intuitive mobile applications using Clean Architecture and Bloc Pattern. Proven success in delivering digital transformation projects and workflow automation across finance, insurance, and manufacturing domains. Google Certified Cloud Architect passionate about leveraging GCP and low-code platforms to streamline operations and boost business agility.

TECH STACK & TOOLS

Languages: Dart, SQL, JavaScript

Mobile: Flutter (Android & iOS)

Architecture: Clean Architecture, Bloc Pattern

Cloud & Automation: Google Cloud Platform (GCP), AppSheet, Google Apps Script

Dev Tools: Git, Bitbucket, Firebase, Figma

Enterprise Integration: SAP HANA, Cloud SQL

PROFESSIONAL EXPERIENCE

2019 – Present

SOFTWARE ENGINEER | FINETECH CONSULTANCY PVT LTD – SRI LANKA

Flutter App Development

- Architected & launched the Timespot Attendance App with end-to-end features (attendance, task management, leave & WFH workflows).
- Created DocIt, an OCR-powered document management system with dynamic indexing and search.

Cloud Workflow Automation

- Digitized workflows for top clients (Dilmah, DFCC, SANASA, SDF Bank), achieving up to 80% paper reduction.
- Automated business processes using AppSheet & Apps Script integrated with SAP B1 (HANA/SQL).

Tech Leadership & Collaboration

- Led technical design and cross-team integrations for enterprise-grade systems.
- Mentored developers in architecture best practices and cloud workflows.
